

CV Report for Job: Convex Developer

Score: 60/100

Analysis

The candidate demonstrates experience in web development with several internships and freelance work. Their proficiency in Angular, Node.js, and other relevant frameworks is a positive. However, the CV lacks specific mention of experience with Convex, a crucial requirement for the job. The candidate's academic background is strong, but practical experience directly related to the target role is limited.

Insights

Strong background in web development with experience in Angular and Node.js, showing transferable skills.
 Demonstrated experience in project management using tools like Jira and Trello.
 Proficient in various databases (MySQL, PostgreSQL, MongoDB) showcasing versatility.

Weaknesses

No explicit mention of Convex development experience, a major requirement for the role.
 The CV is in French. While not a deal breaker, it might hinder the review process depending on the company's language preferences.
 The CV lacks quantifiable achievements. Adding metrics to showcase impact would significantly strengthen the application.
