

CV Report for Job: Convex Developer

Score: 40/100

Analysis

The candidate demonstrates a strong foundation in web development with experience in Angular, Node.js, and Spring Boot. However, the CV lacks any mention of experience with Convex, the primary requirement for the job. The candidate's experience is mostly in frontend and backend development, but without specific Convex skills, their suitability is questionable. The candidate shows strong initiative with freelancing experience and multiple internships, but these experiences don't directly translate to Convex development proficiency.

Insights

Significant experience in web development using various frameworks (Angular, Node.js, Spring Boot).
Demonstrated initiative through freelancing work and multiple internships.
Proficient in several databases (MySQL, PostgreSQL, MongoDB).

Weaknesses

No experience with Convex, the primary skill required for the position.
CV is in French, which may present a communication barrier depending on the company's language preference.
The candidate's experience level is not explicitly aligned with the "master" level expectation in the job description.

Skills

Angular	
Node.js	
Spring Boot	
SQL/MySQL/PostgreSQL	
MongoDB
