

CV Report for Job: Convex Developer

Score: 60/100

Analysis

The candidate demonstrates experience in web development with various frameworks (Angular, Node.js, Spring Boot) and databases (MySQL, PostgreSQL, MongoDB). However, the CV lacks explicit mention of experience with Convex, a key requirement for this role. The candidate's project descriptions are brief and lack quantifiable results. While the candidate showcases a strong foundation in software development, a crucial gap exists in the core technology required for this position.

Insights

Strong background in web development with demonstrated experience in Angular and Node.js, showcasing transferable skills.
Experience with multiple databases (SQL and NoSQL) indicates adaptability and a broad skillset.
Active participation in extracurricular activities demonstrates leadership and teamwork skills.

Weaknesses

No demonstrable experience with Convex, a core requirement of the job description.
Lack of detailed project descriptions, preventing a full assessment of technical abilities and problem-solving skills.
The CV is written in French, which may present a communication barrier depending on the company's language preference.
